New Uses Forum 2019

Producers of
protein
ingredients for
the animal feed
industry

1st market:
**Swine
Starters**

Market Development:
Multi-species & across geographies

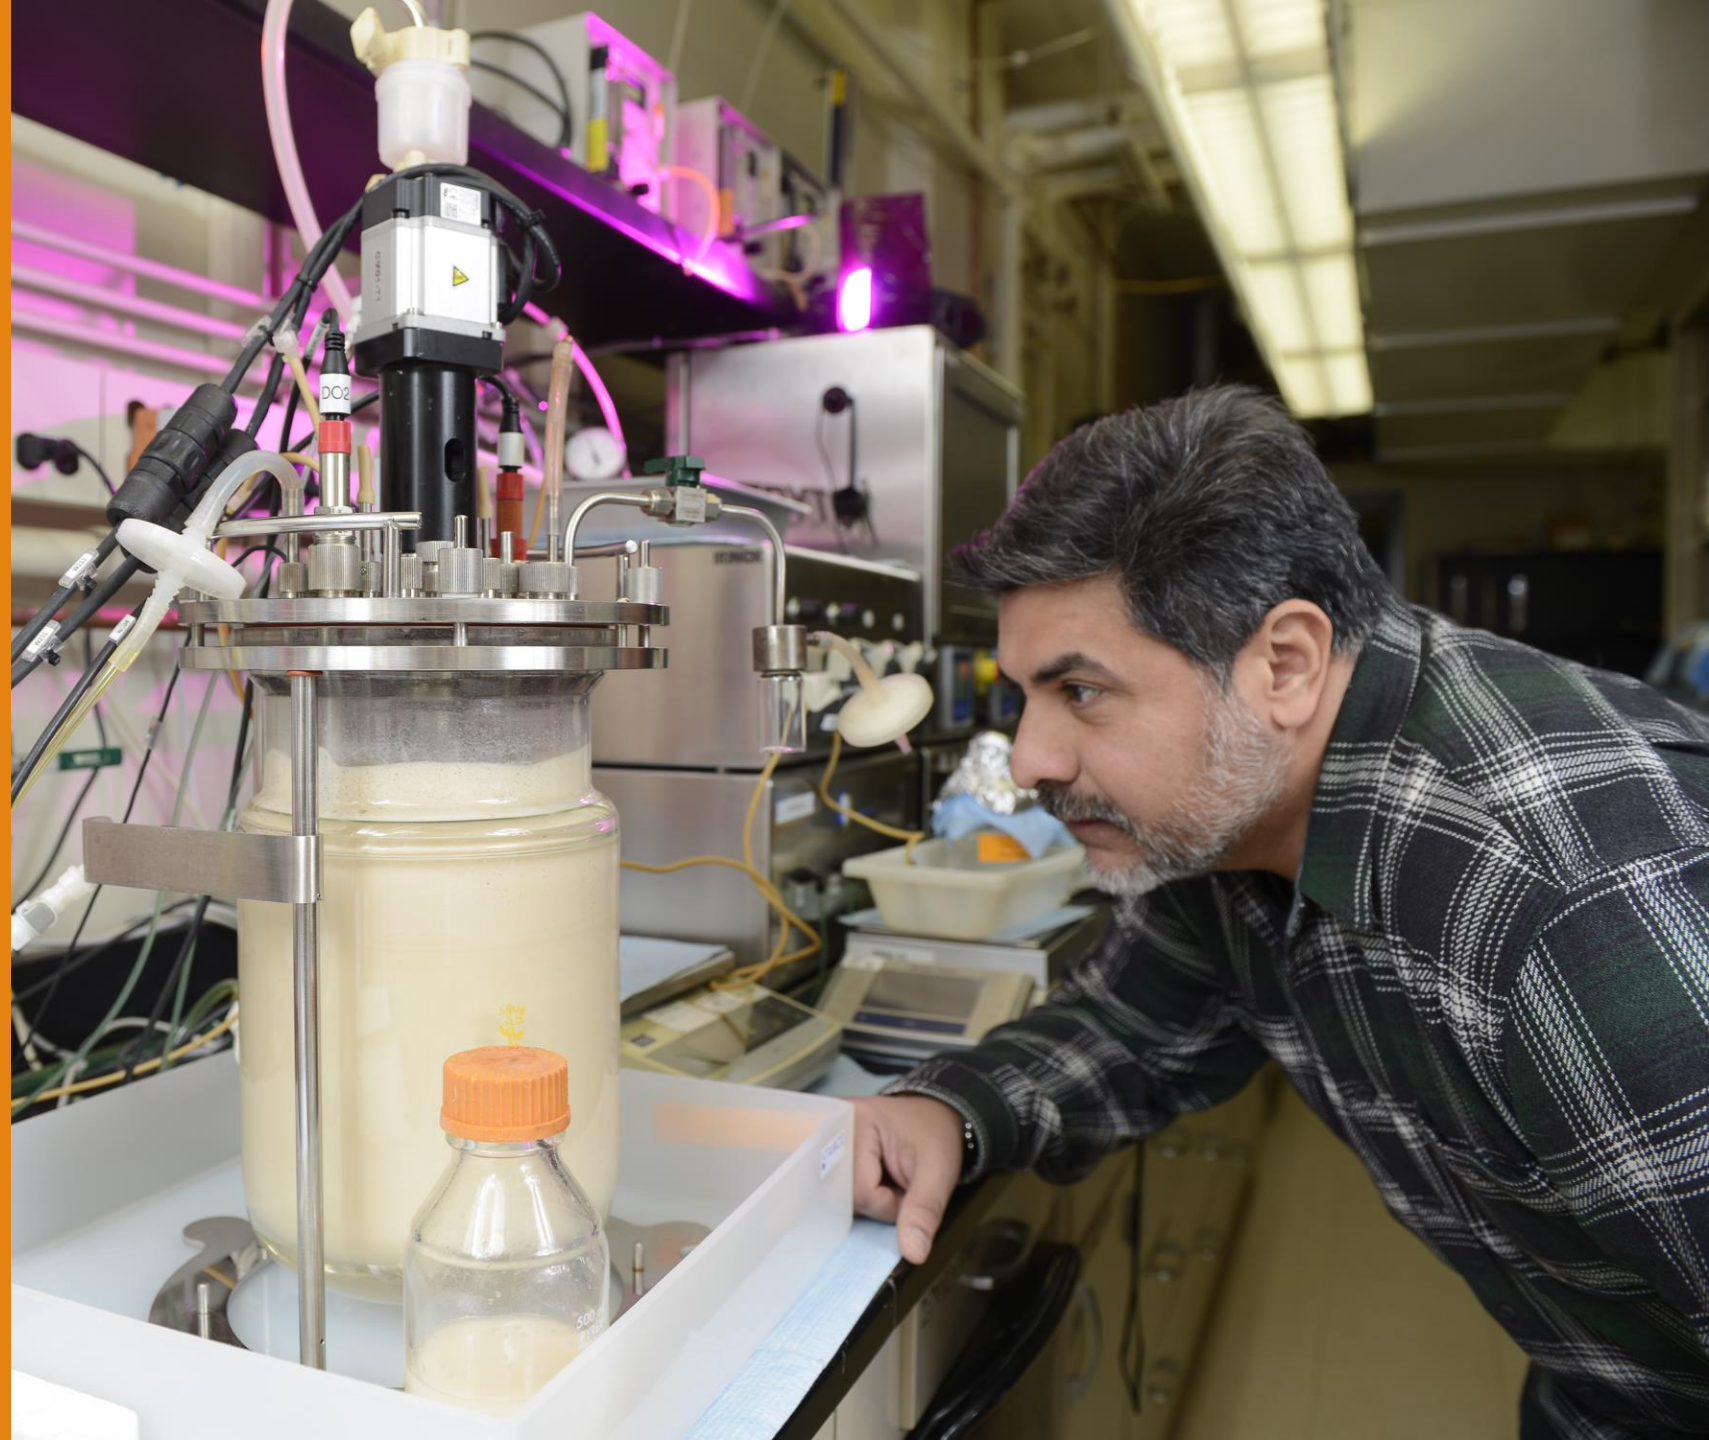

One-year progress report

Demonstrated product feasibility and market value

Bootstrapped MVP and raising Seed Round.

Provisional patent and developing IP strategy

Conducting feed trials and product registration

NewStarch Solutions

Starch Resin Manufacturers

Introduction

- NewStarch Solutions was established in 2016 by Dean Bartels and Matt Niles
- Occupy a 20,000 square foot facility in Plymouth MN
- Combined 40 years of experience in Starch Manufacturing
- The Starch Resin was developed for loose fill used in the Packaging Industry to replace EPS
- Manufacture and sell millions of pounds of resin worldwide for loose fill
- Developing a special starch resin used to make a Starch Sheet

Starch Resin for Sheet Products

- The Starch Sheet will consist of a new formula of corn and potato starch resin
- It will be processed by a custom single screw extruder
- A modified Take A Way System will enable the Starch Sheet to be cut into custom sizes
- The Starch Sheet will be used for coolers in the pharmaceutical, food, and specialty markets
- The Starch Sheet will replace the EPS Sheet in various markets
- NewStarch Solutions has a patent pending on the product and process
